

***Normas de apresentação de referências bibliográficas nos  
Relatórios de Estágio  
(Aprovado em CC de 7.02.07)***

***As normas são as indicadas para a revista *Journal of  
Animal Science* ( [The American Society of Animal Science](http://jas.fass.org/) - <http://jas.fass.org/>)***

**INSTRUCTIONS FOR CONTRIBUTORS (REVISED 2007)**

***Literature Cited***

***Citations in Text.*** In the body of the manuscript, refer to authors as follows: Smith and Jones (1992) or Smith and Jones (1990, 1992). If the sentence structure requires that the authors' names be included in parentheses, the proper format is (Smith and Jones, 1982; Jones, 1988a,b; Jones et al., 1993). When there are more than 2 authors of an article, the first author's name is followed by the abbreviation et al. More than 1 article listed in the same sentence of text must be in chronological order first, and alphabetical order for 2 publications in the same year. Work that has not been accepted for publication shall be listed in the text as "J. E. Jones (institution, city, and state or country, personal communication)." The author's own unpublished work should be listed in the text as "(J. Smith, unpublished data)." Personal communications and unpublished data must not be included in the Literature Cited section.

***Literature Cited Section.*** To be listed in the Literature Cited section, papers must be published or accepted for publication ("in press"). In the Literature Cited section, references are listed alphabetically by the author(s)' last name(s), and then chronologically. The year of publication follows the authors' names. As with text citations, 2 or more publications by the same author or set of authors in the same year shall be differentiated by adding lowercase letters after the date. All authors' names must appear in the Literature Cited section. Journals shall be abbreviated according to the conventional ISO abbreviations used by PubMed (<http://www.ncbi.nlm.nih.gov/entrez/query.fcgi>). Oneword titles must be spelled out. Inclusive page numbers must be provided. Sample references are given below.

***Books and Articles Within Edited Books***

AOAC. 1990. Official Methods of Analysis. 15th ed. Assoc. Off. Anal. Chem., Arlington, VA. NRC. 1989. Pages 90–110 in Nutrient Requirements of Dairy Cattle. 6th rev. ed. Natl. Acad. Press, Washington, DC.  
Robinson, P. H., E. K. Okine, and J. J. Kennelly. 1992. Measurement of protein digestion in ruminants. Page 121 in Modern Methods in Protein Nutrition and Metabolism. S. Nissen, ed. Academic Press, San Diego, CA.

***Handbooks, Technical Bulletins, Theses, and Dissertations***

Goering, H. K., and P. J. Van Soest. 1970. Forage Fiber Analyses (Apparatus, Reagents, Procedures, and Some Applications). Agric. Handbook No. 379. ARS-USDA, Washington, DC.  
Sigma. 1984. Total hemoglobin: Quantitative, colorimetric determination in whole blood at 530–550 nm. Tech. Bull. No. 525. rev. ed. Sigma Chemical, St. Louis, MO.  
Ward, J. D. 1995. Effects of copper deficiency on performance and immune function of cattle. PhD Diss. North Carolina State Univ., Raleigh.
